CION INVESTMENT CORPORATION

**3 PARK AVENUE, 36th FLOOR
NEW YORK, NY 10016**

**PROXY STATEMENT
ANNUAL MEETING OF SHAREHOLDERS
TO BE HELD ON JULY 28, 2022**

This Proxy Statement is furnished in connection with the solicitation of proxies on behalf of the Board of Directors (the “Board” and each member thereof, a “Director” and collectively, the “Directors”) of CION Investment Corporation, a Maryland corporation (the “Company”), for use at the Company’s 2022 Annual Meeting of Shareholders (the “Meeting”) to be held on Thursday, July 28, 2022 at 5:00 p.m. Eastern Time, or at any and all adjournments or postponements thereof, for the purposes set forth in the accompanying Notice of Annual Meeting of Shareholders dated June 1, 2022 (the “Notice”). The Meeting will be a completely virtual meeting, which will be conducted via live webcast. You will be able to attend the Meeting online and submit your questions during the Meeting by visiting www.virtualshareholdermeeting.com/CIC2022.

You may vote your shares of common stock, par value \$0.001 per share (the “Shares”), at the Meeting only if you were a shareholder of record at the close of business on the record date. The Board has fixed the close of business on May 31, 2022 as the record date (the “Record Date”) for the determination of shareholders entitled to receive notice of, and to vote at, the Meeting. As of the Record Date, the Company had 56,958,440 Shares outstanding.

The Meeting is being held for the following purposes:

1. To elect three directors of the Company, who will each serve for a term of three years, or until their successors are duly elected and qualified (the “Director Proposal”);
2. To consider and vote upon the approval of a proposal to authorize flexibility for the Company, with the approval of the Board, to offer and sell Shares at a price below net asset value (“NAV”) during the next 12 months following shareholder approval, subject to certain limitations described in this proxy statement (the “Share Issuance Proposal”); and
3. To consider and transact such other business as may properly come before the Meeting or at any adjournment or postponement thereof.

If the form of proxy is properly executed and returned in time to be voted at the Meeting, the Shares covered thereby will be voted at the Meeting in accordance with the instructions marked thereon. All properly executed proxies received by the Board that do not specify how Shares should be voted will be voted “FOR” each Proposal, and in the discretion of the persons named as proxies in connection with any other matter which may properly come before the Meeting or at any adjournment or postponement thereof. A shareholder who has given a proxy may revoke his or her proxy any time before it is exercised by (i) attending and voting virtually at the Meeting, (ii) giving written notice of such revocation to the Secretary of the Company, or (iii) returning a properly executed, later-dated proxy.

The Company has enclosed a copy of this proxy statement and the proxy card. This proxy statement and the proxy card are also available at www.proxyvote.com. The Company has also enclosed a copy of the Company’s annual report to shareholders for the year ended December 31, 2021 (the “Annual Report”). Such report is also available at www.cionbdc.com.

Quorum Required

A quorum must be present at the Meeting for any business to be conducted. Under the Company’s Bylaws, one-third of the number of Shares entitled to be cast, present virtually or by proxy, constitutes a quorum for the transaction of business. Shareholders of the Company are entitled to one vote for each Share held. Abstentions and withheld votes will be treated as Shares that are present for purposes of determining the presence of a quorum for transacting business at the Meeting. Broker “non-votes” (that is, proxies from brokers or nominees indicating that such persons have not received instructions from the beneficial owner or other persons entitled to vote shares on a particular matter with respect to which the brokers or nominees do not have discretionary power) will not be treated as present.

The Chairman of the Meeting or the shareholders entitled to vote at the Meeting, present virtually or by proxy, shall have the power to adjourn the Meeting from time to time, which would include the ability to adjourn the

Meeting to a date not more than 120 days after the Record Date without notice other than the announcement at the Meeting of the future date, time and location of the reconvened Meeting. The persons named as proxies will vote those proxies for such adjournment, unless marked to be voted against any proposal for which an adjournment is sought. Any business that might have been transacted at the Meeting originally called may be transacted at any such adjourned session(s) at which a quorum is present. If sufficient votes in favor of one or more proposals have been received by the time of the Meeting, the proposals will be acted upon and such actions will be final, regardless of any subsequent adjournment to consider other proposals.

Voting

Shareholders are entitled to cast one vote for each Share held and fractional votes for each fractional Share held. The table below provides a summary of the vote required for each proposal, with additional discussion thereafter:

Proposal	Vote Allowed and Impact	Vote Required
Proposal 1 – Election of Directors	<p>Each Share may be voted for the director nominees. Votes that are withheld will have no effect on the outcome of the vote on this proposal. Shares represented by broker non-votes are also not considered votes cast and thus have no effect on this proposal.</p> <p>Proxies received will be voted “FOR” the election of the director nominees named in this Proxy Statement unless shareholders designate otherwise.</p>	Each director shall be elected by a plurality of all the votes cast at the Meeting virtually or by proxy, provided that a quorum is present.
Proposal 2 – Share Issuance	<p>You may vote for or against or abstain from voting on the Share Issuance Proposal. Abstentions and broker non-votes will not count as affirmative votes cast and will therefore have the same effect as votes against the Share Issuance Proposal.</p> <p>If shareholders approve the Share Issuance Proposal, during a one-year period commencing on the date of such approval, the Company will be permitted, but not required or otherwise obligated, to offer and sell newly issued Shares at a price below NAV per Share at the time sold.</p>	Approval of the Share Issuance Proposal requires the affirmative vote of the holders of (1) a majority of the outstanding voting securities entitled to vote at the Meeting and (2) a majority of the outstanding Shares entitled to vote at the Meeting that are not held by affiliated persons of the Company. The 1940 Act defines “a majority of outstanding voting securities” of the Company as (a) 67% or more of the voting securities present at the Meeting if the holders of more than 50% of the outstanding voting securities of the Company are present or represented by proxy or (b) more than 50% of the outstanding voting securities of the Company, whichever is less.

Director Proposal: The directors shall be elected by a plurality of all the votes cast at the Meeting (i.e., more votes for the director than any other option for the position), provided that a quorum is present. Each Share may be

voted for the director nominees. Proxies received will be voted "FOR" the election of the director nominees named herein unless shareholders designate otherwise. Votes that are withheld will have no effect on the outcome of the vote on this proposal. Shares represented by broker non-votes are also not considered votes cast and thus have no effect on this proposal.

Share Issuance Proposal: Approval of the Share Issuance Proposal requires the affirmative vote of the holders of (1) a majority of the outstanding voting securities entitled to vote at the Meeting and (2) a majority of the outstanding Shares entitled to vote at the Meeting that are not held by affiliated persons of the Company. For these purposes, the 1940 Act defines "a majority of outstanding voting securities" of the Company as (a) 67% or more of the voting securities present at the Meeting if the holders of more than 50% of the outstanding voting securities of the Company are present or represented by proxy or (b) more than 50% of the outstanding voting securities of the Company, whichever is less. Abstentions and broker non-votes will not count as affirmative votes cast and will therefore have the same effect as votes against the Share Issuance Proposal.

The persons named as proxies will vote those proxies for such adjournment, unless marked to be voted against any proposal for which an adjournment is sought. If sufficient votes in favor of one or more proposals have been received by the time of the Meeting, the proposals will be acted upon and such actions will be final, regardless of any subsequent adjournment to consider other proposals.

Director Proposal: The directors shall be elected by a plurality of all the votes cast at the Meeting (i.e., more votes for the director than any other option for the position), provided that a quorum is present. Each Share may be voted for the director nominees. Proxies received will be voted “FOR” the election of the director nominees named herein unless shareholders designate otherwise. Votes that are withheld will have no effect on the outcome of the vote on this proposal. Shares represented by broker non-votes are also not considered votes cast and thus have no effect on this proposal.

Share Issuance Proposal: Approval of the Share Issuance Proposal requires the affirmative vote of the holders of (1) a majority of the outstanding voting securities entitled to vote at the Meeting and (2) a majority of the outstanding Shares entitled to vote at the Meeting that are not held by affiliated persons of the Company. For these purposes, the 1940 Act defines “a majority of outstanding voting securities” of the Company as (a) 67% or more of the voting securities present at the Meeting if the holders of more than 50% of the outstanding voting securities of the Company are present or represented by proxy or (b) more than 50% of the outstanding voting securities of the Company, whichever is less. Abstentions and broker non-votes will not count as affirmative votes cast and will therefore have the same effect as votes against the Share Issuance Proposal.

What is a “broker non-vote”?

A “broker non-vote” occurs when a broker who holds Shares for the beneficial owner does not vote on a proposal because the broker does not have discretionary voting authority for that proposal and has not received instructions from the beneficial owner of the Shares. Broker non-votes will not be counted as present for the purposes of the Meeting.

Are shareholders entitled to appraisal rights in connection with any of the proposals?

None of the proposals, if approved, entitle shareholders to appraisal rights under Maryland law or the Charter.

What constitutes a “quorum”?

Under the Company’s Bylaws, one-third of the number of Shares entitled to be cast, present virtually or by proxy, constitutes a quorum for the transaction of business. Shareholders of the Company are entitled to one vote for each Share held.

Whom should I call for additional information about voting by proxy or authorizing a proxy by telephone or Internet to vote my Shares?

If you have any questions regarding the proxy materials, please contact the Company at 800-343-3736.

PROPOSAL 1 - ELECTION OF DIRECTORS

At the Meeting, shareholders are being asked to consider the election of three of the current directors of the Company, Edward J. Estrada, Peter I. Finlay and Earl V. Hedin. No person being nominated as a director is being proposed for election pursuant to any agreement or understanding between any such person and the Company.

A shareholder can vote for, or withhold his or her vote from, the director nominees. **In the absence of instructions to the contrary, it is the intention of the persons named as proxies to vote such proxy "FOR" the election of the director nominees named herein. If the director nominees should decline or be unable to serve as a director, it is intended that the proxy will be voted for the election of such person or persons as are nominated as replacements.** The Board has no reason to believe that any of the persons named will be unable or unwilling to serve.

- (2) The Company's directors are divided into three classes, each holding office for a three-year term. However, the initial members of the three classes had initial terms of one, two and three years, respectively. At each annual meeting of shareholders, the successors to the class of directors whose terms expire at such meeting will be elected to hold office for a term expiring at the annual meeting of shareholders held in the third year following the year of their election. Each director will hold office for the term to which he or she is elected and serve until his or her successor is duly elected and qualified.
- (3) "Interested person" of the Company as defined in Section 2(a)(19) of the 1940 Act. Messrs. Gatto and Reisner are each an "interested person" because of their affiliation with CIM.

Risk Oversight and Board Structure

Through its direct oversight role, and indirectly through its committees, the Board performs a risk oversight function for the Company consisting of, among other things, the following activities: (1) at regular and special Board meetings, and on an ad hoc basis as needed, receiving and reviewing reports related to the performance and operations of the Company; (2) reviewing and approving, as applicable, the compliance policies and procedures of the Company; (3) meeting with the portfolio management team to review investment strategies, techniques and the processes used to manage related risks; (4) meeting with, or reviewing reports prepared by, the representatives of the Company's key service providers, including its investment adviser, administrator, and independent registered public accounting firm, to review and discuss the Company's activities and to provide direction with respect thereto; and (5) engaging the services of the Company's chief compliance officer to test the compliance procedures of the Company and certain of its service providers.

Messrs. Gatto and Reisner, who are "interested persons" as defined in Section 2(a)(19) of the 1940 Act, serve as the co-chief executive officers and co-chairmen of the Board. The Board believes that Messrs. Gatto and Reisner, as the Company's co-chief executive officers and co-chairmen of the Board, are the directors with the most knowledge of the Company's business strategy and are best situated to serve as chairmen of the Board. The Company's charter, as well as regulations governing BDCs generally, require that a majority of the Board be persons other than "interested persons" of the BDC, as defined in Section 2(a)(19) of the 1940 Act. The Board does not currently have a lead Independent Director. The Board, after considering various factors, including, among other things, its current duties, responsibilities and the overall business of the Company, has concluded that its structure is appropriate at this time. The Board will continue to monitor the Company's structure and determine whether it remains appropriate based on the complexity of the Company's operations.

There have been no purchases or sales of securities of CIM or its parent or subsidiaries by any of the Company's directors since the beginning of the most recently completed fiscal year.

Committees of the Board

The Board has established a standing audit committee, a standing nominating and corporate governance committee and a standing compensation committee. The Board met eight times and took action by unanimous written consent seven times during the fiscal year ended December 31, 2021. Each director attended more than 95% of the aggregate of all meetings of the Board held during the fiscal year ended December 31, 2021. The Company does not have a formal policy regarding director attendance at an annual meeting of shareholders.

Audit Committee

The members of the Company's audit committee are Robert A. Breakstone, Peter I. Finlay, Aron I. Schwartz, Earl V. Hedin, Catherine K. Choi and Edward J. Estrada, each of whom meets the independence standards established by the SEC for audit committees and is independent for purposes of the 1940 Act and the NYSE Listed Company Manual. Mr. Schwartz serves as chairman of the audit committee. The Board has determined that Mr. Schwartz is an "audit committee financial expert" as that term is defined under Item 407 of Regulation S-K of the Exchange Act. The audit committee operates pursuant to a written charter and meets periodically as necessary. A copy of the audit committee's charter is available on the Company's website: www.cionbdc.com. The audit committee is responsible for selecting, engaging and discharging the Company's independent registered public accounting firm (the "independent accountants"), reviewing the plans, scope and results of the audit engagement with the Company's independent accountants, approving professional services provided by the Company's independent accountants (including compensation therefor), reviewing the independence of the Company's independent accountants and reviewing the adequacy of the Company's internal controls over financial reporting. The audit committee also establishes guidelines, reviews preliminary valuations and makes recommendations to the Board regarding the valuation of the Company's loans and other investments. The audit committee met seven times in 2021.

Nominating and Corporate Governance Committee

The members of the Company's nominating and corporate governance committee are Robert A. Breakstone, Peter I. Finlay, Aron I. Schwartz, Earl V. Hedin, Catherine K. Choi and Edward J. Estrada, each of whom meets the independence standards established by the SEC for governance committees and is independent for purposes of the

1940 Act and the NYSE Listed Company Manual. Mr. Breakstone serves as chairman of the nominating and corporate governance committee. The nominating and corporate governance committee operates pursuant to a written charter and meets periodically as necessary. A copy of the nominating and corporate governance committee's charter is available on the Company's website: www.cionbdc.com. The nominating and corporate governance committee is responsible for selecting, researching, and nominating directors for election by the Company's shareholders, selecting nominees to fill vacancies on the Board or a committee of the Board, developing and recommending to the Board a set of corporate governance principles and overseeing the evaluation of the Board and the Company's management. The nominating and corporate governance committee will consider shareholders' proposed nominations for directors. The nominating and corporate governance committee met four times in 2021.

The nominating and corporate governance committee considers candidates suggested by its members and other directors, as well as the Company's management and shareholders. A shareholder who wishes to recommend a prospective nominee for the Board must provide notice to the Company's corporate secretary in accordance with the requirements set forth in the Company's Bylaws, the nominating and corporate governance committee charter and any applicable law, rule or regulation regarding director nominations. Nominations should be sent to Stephen Roman, Corporate Secretary, CION Investment Corporation, 3 Park Avenue, 36th Floor, New York, NY 10016. To have a candidate considered by the nominating and corporate governance committee, a shareholder must submit the recommendation in writing and must include the following information:

- The name of the shareholder and evidence of the person's ownership of Shares, including the number of Shares owned and the length of time of the ownership;
- The name of the candidate, the candidate's resume or a listing of his or her qualifications to be a director of the Company and the person's consent to be named as a director if selected by the nominating and corporate governance committee and nominated to the Board; and
- If requested by the nominating and corporate governance committee, a completed and signed director's questionnaire.

Compensation Committee

The members of the Company's compensation committee are Robert A. Breakstone, Peter I. Finlay, Aron I. Schwartz, Earl V. Hedin, Catherine K. Choi and Edward J. Estrada, each of whom meets the independence standards established by the SEC for compensation committees and is independent for purposes of the 1940 Act and the NYSE Listed Company Manual. The Company currently does not have a chairperson of the compensation committee. The compensation committee operates pursuant to a written charter and meets periodically as necessary. A copy of the compensation committee's charter is available on the Company's website: www.cionbdc.com. The compensation committee is responsible for determining, or recommending to the Board for determination, the compensation, if any, of the Company's co-chief executive officers and all other executive officers. The compensation committee also assists the Board with matters related to compensation generally, except with respect to compensation of the directors.

The Company's executive officers do not receive any direct compensation from the Company. However, the compensation payable to CIM pursuant to the investment advisory agreement has been separately approved by a majority of the Independent Directors, as well as the Company's shareholders in 2021. As none of the Company's executive officers currently is compensated by the Company, the compensation committee does not produce and/or review a report on executive compensation practices. The compensation committee did not hold any formal meetings in 2021.

Compensation of Directors

Directors who do not also serve in an executive officer capacity for the Company or CIM are entitled to receive annual cash retainer fees, fees for attending Board and committee meetings and annual fees for serving as a committee chairperson. These directors are Robert A. Breakstone, Peter I. Finlay, Aron I. Schwartz, Earl V. Hedin, Catherine K. Choi and Edward J. Estrada. These directors are paid (i) annual cash retainer fees of \$90,000; (ii) fees for attending Board and committee meetings (in-person or telephonically) of \$800 per meeting; and (iii) annual fees of \$25,000 for serving as a committee chairperson (per committee). Amounts payable under this arrangement are determined and paid quarterly in arrears.

The Company also reimburses each of the above directors for all reasonable and authorized business expenses in accordance with the Company's policies as in effect from time to time. The Company did not pay compensation to its directors who also serve in an executive officer capacity for the Company or CIM for the year ended December 31, 2021.

The Company's directors were paid compensation of \$512,433 in connection with their service on the Board during the year ended December 31, 2021. No director or executive officer receives pension or retirement benefits from the Company.

Communications Between Shareholders and the Board of Directors

The Board welcomes communications from the Company's shareholders. Shareholders may send communications to the Board, or to any particular director, to the following address: c/o CION Investment Corporation, 3 Park Avenue, 36th Floor, New York, NY 10016. Shareholders should indicate clearly the director or directors to whom the communication is being sent so that each communication may be forwarded directly to the appropriate director(s).

Code of Business Conduct

The Company has adopted a code of business conduct pursuant to Rule 17j-1 promulgated under the 1940 Act, which applies to, among others, its officers, including its Co-Chief Executive Officers and its Chief Financial Officer, as well as the members of the Board. The Company's code of business conduct can be accessed via the Company's website at www.cionbdc.com. The Company intends to disclose any amendments to or waivers of required provisions of the code of business conduct on Form 8-K or on the Company's website.

Practice and Policies Regarding Personal Trading and Hedging of Equity

The Company has also established a policy designed to prohibit the officers, directors, and certain employees of CIM and its affiliates from purchasing or selling the Company's shares while in possession of material nonpublic information, or otherwise using such information for their personal benefit or in any manner that would violate applicable laws and regulations. The policy also prohibits all directors and officers from engaging in hedging or monetization transactions or similar arrangements with respect to the Company's securities without prior approval of the Company's chief compliance officer.

Corporate Governance Guidelines

The Company has adopted corporate governance guidelines pursuant to Section 303A.09 of the NYSE Listed Company Manual, which can be accessed via the Company's website at www.cionbdc.com.

Compensation Discussion and Analysis

The Company's executive officers do not receive any direct compensation from the Company. The Company does not currently have any employees and does not expect to have any employees. Services necessary for the Company's business are provided by individuals who are officers of CIM or by individuals who were contracted by CIM to work on behalf of the Company, pursuant to the terms of the investment advisory agreement or administration agreement. Each of the Company's executive officers is an officer of CIM, and the day-to-day investment operations and administration of the Company's portfolio are managed by CIM. In addition, the Company reimburses CIM for the Company's allocable portion of expenses incurred by CIM in performing its obligations under the administration agreement, including the allocable portion of the cost of the Company's officers and their respective staffs determined under the administration agreement.

The investment advisory agreement and the administration agreement each provides that CIM and its officers, directors, controlling persons and any other person or entity affiliated with them acting as the Company's agent shall be entitled to indemnification (including reasonable attorneys' fees and amounts reasonably paid in settlement) for any liability or loss suffered by CIM or such other person, and CIM and such other person shall be held harmless for any loss or liability suffered by the Company, if (i) CIM has determined, in good faith, that the course of conduct which caused the loss or liability was in the Company's best interests, (ii) CIM or such other person was acting on behalf of or performing services for the Company, (iii) the liability or loss suffered was not the result of willful malfeasance, bad faith or gross negligence by CIM or an affiliate thereof acting as the Company's agent, and (iv) the indemnification or agreement to hold CIM or such other person harmless is only recoverable out of the Company's net assets and not from the Company's shareholders.

Certain Relationships and Related Transactions

The Company has procedures in place for the review, approval and monitoring of transactions involving the Company and certain persons related to the Company. For example, the Company has a code of business conduct that generally prohibits any employee, officer or director from engaging in any transaction where there is a conflict between such individual's personal interest and the interests of the Company. Waivers to the code of business conduct can generally only be obtained from the Chief Compliance Officer, the Co-Chairmen of the Board or the Chairman of the audit committee of the Board and are publicly disclosed as required by applicable law and regulations. In addition, the audit committee reviews all related person transactions for potential conflict of interest situations on an ongoing basis in accordance with the Company's code of ethics, code of business conduct and other applicable policies and procedures, and all such transactions are approved or ratified by the audit committee as set forth in the audit committee charter.

Messrs. Gatto and Reisner, the Company's Co-Chairmen and Co-Chief Executive Officers, also serve as Co-Chief Executive Officers of CIM. In addition, Messrs. Gatto and Reisner each directly and indirectly own approximately 38% of CIG's ownership of CIM.

The Company has entered into an investment advisory agreement with CIM. Pursuant to the investment advisory agreement, the Company pays CIM a base management fee and an incentive fee. The Company has also entered into an administration agreement with CIM, pursuant to which the Company reimburses CIM for administrative expenses it incurs on the Company's behalf.

On January 1, 2019, the Company entered into a servicing agreement with CIM's affiliate, Apollo Investment Administration, L.P., or AIA, pursuant to which AIA furnishes the Company with administrative services including, but not limited to, loan and high yield trading services, trade and settlement support, and monthly valuation reports and support for all broker quoted investments. AIA is reimbursed for administrative expenses it incurs on the Company's behalf in performing its obligations, provided that such reimbursement is reasonable, and costs and expenses incurred are documented.

The Company's executive officers, certain of its directors and certain other finance professionals of CION Investments also serve as executives of CIM and officers of the Company and Messrs. Gatto and Reisner are directors of CION Securities, LLC, the dealer manager for the offering of Shares, which ended on January 25, 2019. In addition, the Company's executive officers and directors and the members of CIM and members of the investment committee serve or may serve as officers, directors or principals of entities that operate in the same, or related, line of business as the Company does or of investment funds, accounts or other investment vehicles managed by the Company's affiliates. These investment funds, accounts or other investment vehicles may have investment objectives similar to the Company's investment objective. The Company may compete with entities managed by CIM and its affiliates for capital and investment opportunities. As a result, the Company may not be given the opportunity to participate in certain investments made by investment funds, accounts or other investment vehicles managed by CIM or its affiliates or by members of the investment committee. However, to fulfill its fiduciary duties to each of its clients, CIM intends to allocate investment opportunities in a manner that is fair and equitable over time and is consistent with CIM's allocation policy, investment objective and strategies so that the Company is not disadvantaged in relation to any other client. CIM has agreed with the Board that allocations among the Company and other investment funds affiliated with CIM will be made based on capital available for investment in the asset class being allocated. The Company expects that its available capital for investments will be determined based on the amount of cash on-hand, existing commitments and reserves, if any, and the targeted leverage level and targeted asset mix and other investment policies and restrictions set by the Board or as imposed by applicable laws, rules, regulations or interpretations.

Policies and Procedures for Managing Conflicts

CIM and its affiliates have both subjective and objective procedures and policies in place designed to manage the potential conflicts of interest between CIM's fiduciary obligations to the Company and its similar fiduciary obligations to other clients. For example, such policies and procedures may be designed so that, when appropriate, certain investment opportunities may be allocated on an alternating basis that is fair and equitable among the Company and their other clients. An investment opportunity that is suitable for multiple clients of CIM and its affiliates may not be capable of being shared among some or all of such clients and affiliates due to the limited scale of the opportunity or other factors, including regulatory restrictions imposed by the 1940 Act. There can be no assurance that CIM's or its affiliates' efforts to allocate any particular investment opportunity fairly among all clients

for whom such opportunity is appropriate will result in an allocation of all or part of such opportunity to the Company. Not all conflicts of interest can be expected to be resolved in the Company's favor.

The principals of CIM have managed and will continue to manage investment vehicles with similar or overlapping investment strategies. In order to address these issues, CIM has put in place an investment allocation policy that addresses the co-investment restrictions set forth under the 1940 Act and seeks to ensure the equitable allocation of investment opportunities when the Company is able to co-invest with other accounts managed by CIM and affiliated entities. In the absence of receiving exemptive relief from the SEC that would permit greater flexibility relating to co-investments, CIM will apply the investment allocation policy. When the Company engages in such permitted co-investments, it will do so in a manner consistent with CIM's allocation policy. Under this allocation policy, a fixed percentage of each opportunity, which may vary based on asset class and from time to time, will be offered to the Company and similar eligible accounts, as periodically determined by CIM and approved by the Board, including all of the Independent Directors. The allocation policy further provides that allocations among the Company and other accounts will generally be made pro rata based on each account's capital available for investment, as determined, in the Company's case, by the Board, including the Independent Directors. It is the Company's policy to base its determinations as to the amount of capital available for investment on such factors as: the amount of cash on-hand, existing commitments and reserves, if any, the targeted leverage level, the targeted asset mix and other investment policies and restrictions set by the Board or imposed by applicable laws, rules, regulations or interpretations. The Company expects that these determinations will be made similarly for other accounts. In situations where co-investment with other entities managed by CIM or its affiliates is not permitted or appropriate, such as when there is an opportunity to invest in different securities of the same issuer, CIM will need to decide whether the Company or such other entity or entities will proceed with the investment. CIM will make these determinations based on its policies and procedures, which generally require that such opportunities be offered to eligible accounts in a manner that will be fair and equitable over time.

Share Repurchase Policy

On September 15, 2021, the Board, including the Independent Directors, approved a share repurchase policy authorizing the Company to repurchase up to \$50 million of its outstanding common stock after the listing of its shares of common stock on the New York Stock Exchange, which occurred on October 5, 2021 under the symbol "CION". Under the share repurchase policy, the Company expects to purchase shares of its common stock through various means such as open market transactions, including block purchases, and privately negotiated transactions. The number of shares repurchased and the timing, manner, price and amount of any repurchases will be determined at the Company's discretion. Factors are expected to include, but are not limited to, share price, trading volume and general market conditions, along with the Company's general business conditions. The policy may be suspended or discontinued at any time and does not obligate the Company to acquire any specific number of shares of its common stock.

As part of the share repurchase policy, the Company intends to enter into a trading plan adopted in accordance with Rule 10b5-1 of the Exchange Act based in part on historical trading data with respect to its shares. The 10b5-1 trading plan would permit common stock to be repurchased at a time that the Company might otherwise be precluded from doing so under insider trading laws or self-imposed trading restrictions. The 10b5-1 trading plan will be administered by an independent broker and will be subject to price, market volume and timing restrictions.

Competition

Certain officers of CIM are simultaneously providing investment management services to certain funds managed by its affiliates. CIM may determine that it is appropriate for the Company and one or more other investment accounts managed by CIM or any of its affiliates to participate in an investment opportunity. As a BDC, the Company is subject to certain regulatory restrictions in making its investments with entities with which the Company may be restricted from doing so under the 1940 Act, unless the Company obtains an exemptive order from the SEC or co-invests alongside such affiliates in accordance with existing regulatory guidance. However, there can be no assurance that the Company will obtain such exemptive relief. Even if the Company receives exemptive relief, CIM's investment committee may determine that the Company should not participate in a co-investment transaction.

Affiliated Dealer Manager

The dealer manager is an affiliate of CIM. This relationship may have created conflicts in connection with the dealer manager's due diligence obligations under the federal securities laws. Although the dealer manager examined

the information in the prospectus for accuracy and completeness, due to its affiliation with CIM, no independent review of the Company was made in connection with the distribution of Shares in the offering, which ended on January 25, 2019.

Co-Investment Opportunities

As a BDC, the Company is subject to certain regulatory restrictions in negotiating or investing in certain investments with entities with which the Company may be prohibited from doing so under the 1940 Act, such as CIM and its affiliates, unless the Company obtains an exemptive order from the SEC. The Company has filed an application with the SEC seeking an exemptive order from such restrictions, but there can be no assurances the SEC will ultimately grant the relief sought in the exemptive application. Co-investments made under the exemptive relief, if granted, would be subject to compliance with the conditions and other requirements contained in the exemptive relief provided by the SEC. The Company is limited in its ability to engage in co-investment transactions with CIM and its affiliates without exemptive relief from the SEC. Even if the Company receives exemptive relief, CIM's investment committee may determine that the Company should not participate in a co-investment transaction.

Material Non-Public Information

The Company's senior management, members of CIM's investment committee and other investment professionals from CIM may serve as directors of, or in a similar capacity with, companies in which the Company invests or in which it is considering making an investment. Through these and other relationships with a company, these individuals may obtain material non-public information that might restrict the Company's ability to buy or sell the securities of such company under the policies of the company or applicable law.

Required Vote

Each director shall be elected by a plurality of all the votes cast at the Meeting virtually or by proxy, provided that a quorum is present. Each Share may be voted for the director nominees. In the absence of instructions to the contrary, it is the intention of the persons named as proxies to vote such proxy "FOR" the election of the director nominees named above. Votes that are withheld will have no effect on the outcome of the vote on this proposal. Shares represented by broker non-votes are also not considered votes cast and thus have no effect on this proposal.

**THE BOARD UNANIMOUSLY RECOMMENDS THAT YOU VOTE "FOR" THE ELECTION OF
THE DIRECTOR NOMINEES NAMED IN THIS PROXY STATEMENT.**

**PROPOSAL 2 - APPROVAL TO OFFER AND SELL SHARES AT A PRICE
BELOW NET ASSET VALUE**

Background

The 1940 Act generally prohibits the Company, as a BDC, from offering and selling Shares at a price per Share, after deducting selling commissions and dealer manager fees, below the then-current NAV per Share unless the Company meets certain exceptions.

One such exception would permit the Company to sell or otherwise issue Shares during the next year at a price below the Company's then-current NAV if its shareholders approve such a sale and the Company's directors make certain determinations prior to the sale or issuance of such Shares. A majority of the Company's independent directors and a majority of the Company's directors who have no financial interest in the sale would be required to make a determination as to whether such sale would be in the best interests of the Company and its shareholders prior to selling Shares at a price below NAV per share if the Company's shareholders were to approve such a proposal. A majority of the Company's independent directors and a majority of the Company's directors who have no financial interest in the sale, in consultation with the underwriter or underwriters of the offering if it is to be underwritten, would also be required to determine in good faith, and as of a time immediately prior to the first solicitation by or on behalf of the Company of firm commitments to purchase the Company's Shares or immediately prior to the issuance of such Shares, that the price at which the Shares is to be sold is not less than a price which closely approximates its market value, less any distributing commission or discount.

The Company is seeking the approval of its shareholders so that it may, in one or more public or private offerings of its Shares, sell or otherwise issue Shares, not exceeding 25% of its then outstanding Shares, at a price below NAV, subject to the conditions set forth in this proposal. The Board, including all of the Independent Directors, recommends the proposal to the shareholders for their approval. If approved, the authorization would be effective for securities issued during a twelve-month period following shareholder approval.

Reasons to Offer Shares Below NAV

Status as a RIC and Maintaining a Favorable Debt to Equity Ratio

As a BDC and a regulated investment company ("RIC") for tax purposes, the Company is dependent on its ability to raise capital through the issuance of its Shares. RICs generally must distribute substantially all of their earnings to shareholders as dividends in order to achieve pass-through tax treatment, which prevents the Company from retaining any meaningful amount of earnings to support operations, which may include making new investments (including investments into existing portfolio companies). The Company must also comply with the 150% asset coverage requirement in order to incur debt or issue senior securities. Because BDCs must determine the fair value of the assets in their portfolio quarterly, an unfavorable shift in market dynamics or the existence of underperforming assets may lower that determination of fair value and therefore proportionately increase the value of balance sheet debt compared to assets.

Failure to maintain the required asset coverage ratio could have severe negative consequences for the Company, including the inability to pay distributions and breach of covenants in the Company's credit facilities or other borrowings. Although the Company does not currently expect to breach the asset coverage ratio requirement, the markets it operates in and the general economy are currently exceptionally volatile and uncertain. Even if the underlying performance of one or more portfolio companies may not indicate an impairment or inability to repay all principal and interest in full, volatility in the capital markets may negatively impact the valuations of investments and create unrealized capital depreciation on certain investments. Any such write-downs in value (as well as unrealized capital depreciation based on the underlying performance of the Company's portfolio companies, if any) will negatively impact the Company's total assets and the resulting asset coverage ratio. Issuing additional equity would allow the Company to realign its debt to equity ratio and avoid these negative consequences. In addition to meeting legal requirements applicable to BDCs, having a more favorable debt to equity ratio would also generally strengthen the Company's balance sheet and give it more flexibility to fully execute its business strategy.

Current Market Conditions

From time to time, capital markets may experience periods of disruption and instability. The market is currently experiencing such a period of severe instability due to the effects of the COVID-19 pandemic and the measures taken to contain it. In addition, the Federal Reserve raised interest rates by 0.25% in March 2022 and by 0.50% in May

2022, and recently indicated that, in light of the economic recovery and higher than anticipated inflation, it expects to raise interest rates a few more times in 2022. However, the timing, number and amount of any such future interest rate increases are uncertain. This period of market disruption and instability may adversely affect the Company's access to sufficient debt and equity capital. Debt capital that will be available, if any, may be at a higher cost and on less favorable terms and conditions. Further, although the Company has terminated its public offering, it may be advantageous to seek to raise additional equity capital in private placements, which would be greatly aided by the flexibility of being able to offer Shares at a price below current NAV. This access to equity capital will allow the Company to better negotiate with its lenders and avoid the Company from being a forced seller of assets in this current marketplace. It will also preserve financial flexibility during these uncertain times for other purposes, such as providing liquidity to troubled portfolio companies by participating in a capital restructurings. In addition, the Company believes that additional attractive investment opportunities may present themselves during this period.

Conditions to the Sale of the Company's Shares Below NAV

If shareholders approve this proposal, the Company will sell Shares at a price below NAV per Share, exclusive of sales compensation, only if the following conditions are met:

- a majority of the Independent Directors who have no financial interest in the sale have approved the sale;
- a majority of such Independent Directors, who, in consultation with the underwriter or underwriters of the offering, if any, have determined in good faith, and as of a time immediately prior to the first solicitation by or on behalf of the Company of firm commitments to purchase such securities, or immediately prior to the sale of such securities, that the price at which such securities are to be sold is not less than a price which closely approximates the market value of those securities, less any underwriting commission or discount; and
- the cumulative number of Shares sold pursuant to such authority does not exceed 25% of the Company's then outstanding Shares immediately prior to each such sale.

Key Shareholder Considerations

Before voting on this proposal or giving proxies with regard to this matter, shareholders should consider the dilutive effect of the issuance of the Company's Shares at less than NAV per share. Any sale of Shares at a price below NAV would result in immediate dilution to existing shareholders. Since under this proposal the Company's Shares could be issued at a price that is substantially below the NAV per share, the dilution could be substantial. This dilution would include reduction in the NAV per share as a result of the issuance of Shares at a price below the NAV per share, and a proportionately greater decrease in a shareholder's interest in the earnings and assets of the Company and voting interest in the Company, than the increase in the assets of the Company resulting from such issuance. If this proposal is approved, the Board may, consistent with its fiduciary duties, approve the sale or otherwise issue the Company's Shares at any discount to its then current NAV per share; however, the Board will consider the potential dilutive effect of the issuance of Shares at a price below the NAV per Share when considering whether to authorize any such issuance and will act in the best interests of the Company and its shareholders in doing so.

The 1940 Act establishes a connection between common share sale price and NAV because, when shares of common stock or other specific securities are sold at a sale price below NAV per share, the resulting increase in the number of outstanding shares is not accompanied by a proportionate increase in the net assets of the issuer. Further, if current shareholders of the Company do not purchase any Shares to maintain their percentage interest, regardless of whether such offering is above or below the then current NAV, their voting power will be diluted. For an illustration of the potential dilutive effect of an offering of the Company's Shares at a price below NAV, please see the table below under the heading "Examples of Dilutive Effect of the Issuance of Shares at a Price Below NAV."

It should be noted that the cumulative number of Shares sold below NAV pursuant to this proposal is limited to 25% of the Company's then-outstanding Shares immediately prior to each such sale. While the Company will aggregate all Shares sold below NAV throughout the year for purposes of this limit, the maximum is based on the percentage of outstanding Shares at the time of each offering and if the Company issues additional Shares throughout the year, the Company would be able to issue more Shares below NAV before reaching the 25% limit. Furthermore, there would be no limit on the discount to NAV at which Shares could be sold.

The Company has not offered or sold any Shares at a price below NAV per Share pursuant to the share issuance proposal that was approved by shareholders at the 2021 annual meeting of shareholders. While the Company has no

immediate plans to sell its Shares at a price below NAV per Share pursuant to this Share Issuance Proposal, it is seeking shareholder approval now in order to maintain access to the markets if the Company determines it should sell Shares at a price below NAV per Share, which typically must be undertaken quickly. The final terms of any such sale will be determined by the Board at the time of issuance and the Shares will not include preemptive rights. Also, because the Company has no immediate plans to issue any Shares, it is impracticable to describe the transaction or transactions in which such Shares would be issued. Instead, any transaction where the Company issues such Shares, including the nature and amount of consideration that would be received by the Company at the time of issuance and the use of any such consideration, will be reviewed and approved by the Board at the time of issuance. If the Share Issuance Proposal is approved, no further authorization from the shareholders will be solicited prior to any such issuance in accordance with the terms of this proposal.

Examples of Dilutive Effect of the Issuance of Shares at a Price Below NAV

Impact on Existing Shareholders who do not Participate in the Offering

Existing shareholders who do not participate in an offering at a price below NAV or who do not buy additional Shares in the secondary market or in the public market on the New York Stock Exchange at the same or lower price obtained by the Company in the offering face the greatest potential risks. These shareholders will experience an immediate dilution in the NAV of the Shares they hold and will also experience a disproportionately greater decrease in their participation in the Company's earnings and assets and their voting power than the increase the Company will experience in its assets and voting interests due to such offering.

The following chart illustrates the level of NAV dilution that would be experienced by a nonparticipating shareholder in three different hypothetical offerings of different sizes and levels of discount from NAV. The examples assume that the issuer has 1,000,000 Shares outstanding, \$15,000,000 in total assets and \$5,000,000 in total liabilities. Based on these assumptions, the current net asset value of the Company and NAV thus would be \$10,000,000 and \$10.00, respectively. The table below illustrates the dilutive effect on nonparticipating Shareholder A of (1) an offering of 50,000 Shares (5% of the outstanding Shares) at \$9.50 per Share after offering expenses and commissions (a 5% discount from NAV); (2) an offering of 100,000 Shares (10% of the outstanding Shares) at \$9.00 per Share after offering expenses and commissions (a 10% discount from NAV); (3) an offering of 200,000 Shares (20% of the outstanding Shares) at \$8.00 per Share after offering expenses and commissions (a 20% discount from NAV); (4) an offering of 250,000 Shares (25% of the outstanding Shares) at \$7.50 per Share after offering expenses and commissions (a 25% discount from NAV) and (5) an offering of 250,000 Shares (25% of the outstanding Shares) at \$0.00 per Share after offering expenses and commissions (a 100% discount from NAV). The offering document pursuant to which any discounted offering is made will include a chart for these examples based on the actual number of Shares in such offering and the actual discount from the most recently determined NAV. It is not possible to predict the level of market price decline that may occur. These examples are provided for illustrative purposes only.

Impact on Existing Shareholders Who Participate in the Offering

Existing shareholders who participate in an offering at a price below NAV or who buy additional Shares in the secondary market or in the public market on the New York Stock Exchange at the same or lower price as the Company obtains in the offering (after expenses and commissions) will experience the same types of NAV dilution as the nonparticipating shareholders, although at a lower level, to the extent they purchase less than the same percentage of the discounted offering as their interest in the Company's Shares immediately prior to the offering. The level of NAV dilution will decrease as the number of Shares such shareholders purchase increases. Existing shareholders who buy more than such percentage will experience NAV dilution but will, in contrast to existing shareholders who purchase less than their proportionate share of the offering, experience accretion in NAV over their investment per Share and will also experience a disproportionately greater increase in their participation in the Company's earnings and assets and their voting power than the Company's increase in assets and voting interests due to such offering. The level of accretion will increase as the excess number of Shares such shareholder purchases increases. Even a shareholder who over-participates will, however, be subject to the risk that the Company may make additional discounted offerings in which such shareholder does not participate, in which case such a shareholder will experience NAV dilution as described above in such subsequent offerings.

The below examples assume that the issuer has 1,000,000 Shares outstanding, \$15,000,000 in total assets and \$5,000,000 in total liabilities. Based on these assumptions, the current net asset value of the Company and NAV thus would be \$10,000,000 and \$10.00, respectively. The table below illustrates the dilutive and accretive effect in the hypothetical 25% discount offering from the prior chart for Shareholder A that acquires Shares equal to (1) 50% of their proportionate share of the offering (i.e., 1,250 Shares, which is 0.50% of the offering of 250,000 Shares rather than their 1.00% proportionate share) and (2) 150% of their proportionate share of the offering (i.e., 3,750 Shares, which is 1.50% of the offering of 250,000 Shares rather than their 1.00% proportionate share). The offering document pursuant to which any discounted offering is made will include a chart for these examples based on the actual number of Shares in such offering and the actual discount from the most recently determined NAV. It is not possible to predict the level of market price decline that may occur. These examples are provided for illustrative purposes only.

Impact on New Investors

The following examples illustrate the level of NAV dilution or accretion that would be experienced by a new shareholder in the Company in three different hypothetical Share offerings of different sizes and levels of discount from NAV per Share, although it is not possible to predict the level of market price decline that may occur. Actual sales prices and discounts may differ from the presentation below.

Investors who are not currently shareholders of the Company, but who participate in an offering by the Company below NAV and whose investment per Share is greater than the resulting NAV per Share due to expenses and any commissions paid by the Company, will experience an immediate decrease, albeit small, in the NAV of their Shares

and their NAV per Share compared to the price they pay for their Shares. Investors who are not currently shareholders of the Company and who participate in an offering by the Company below NAV per Share and whose investment per Share is also less than the resulting NAV per Share due to expenses and any commissions paid by the Company being significantly less than the discount per Share, will experience an immediate increase in the NAV of their Shares and their NAV per Share compared to the price they pay for their Shares. All of these investors will experience a disproportionately greater participation in the Company's earnings and assets and their voting power than the Company's increase in assets, potential earning power and voting interests. These investors will, however, be subject to the risk that the Company may make additional discounted offerings in which such new shareholder does not participate, in which case such new shareholder will experience dilution as described above in such subsequent offerings by the Company. These investors may also experience a decline in the market price of their Shares, which often reflects to some degree announced or potential increases and decreases in NAV per Share. Their decrease could be more pronounced as the size of the offering and level of discounts increases.

The following examples illustrate the level of NAV dilution or accretion that would be experienced by a new shareholder who purchases the same percentage (1.00%) of the Shares in the three different hypothetical offerings of Shares of different sizes and levels of discount from NAV per Share. The examples assume that the issuer has 1,000,000 Shares outstanding, \$15,000,000 in total assets and \$5,000,000 in total liabilities. Based on these assumptions, the current NAV and NAV per Share thus would be \$10,000,000 and \$10.00, respectively. The table below illustrates the dilutive and accretive effects on Shareholder A at (1) an offering of 50,000 Shares (5% of the outstanding Shares) at \$9.50 per Share after offering expenses and any commissions (a 5% discount from NAV); (2) an offering of 100,000 Shares (10% of the outstanding Shares) at \$9.00 per Share after offering expenses and any commissions (a 10% discount from NAV); and (3) an offering of 200,000 Shares (20% of the outstanding Shares) at \$8.00 per Share after offering expenses and any commissions (a 20% discount from NAV).

The discount to NAV is a result of market perception that moves the Share price and thus NAV is only one determinant of market value.

Notwithstanding the dilutive effect of any equity financing on the Company's NAV, the Board has considered the Company's potential need to obtain additional capital for the repayment of indebtedness, investment or other corporate purposes discussed in this proxy statement. With more capital to utilize, the Board believes that the Company would be able to pay down its outstanding indebtedness or make investments with more significant earnings and growth potential. The Board further believes that over time the value of the incremental assets available for investment or other uses, taken together with the other factors previously discussed, may be reflected positively in the market price of the Shares and that such increases may exceed the initial dilutive effects that the Company is likely to experience in its NAV due to offerings of Shares in accordance with this proposal.

Other Considerations

In reaching its recommendation to shareholders to approve the Share Issuance Proposal, the Board considered a possible source of conflict of interest due to the fact that the proceeds from the issuance of additional Shares may increase the management fees that the Company pays to CIM as such fees are partially based on the amount of the Company's gross assets. The Board, including a majority of the Independent Directors, concluded that the benefits to the Company's shareholders from increasing the Company's capital base outweighed any detriment from increased management fees, especially considering that the management fees would increase regardless of whether the Company offers Shares at a price below NAV per Share or above NAV per Share. The Board also considered the effect of the following factors:

- the costs and benefits of an offering of Shares below NAV per Share compared to other possible means for raising capital or concluding not to raise capital;
- the size of an offering of Shares in relation to the number of Shares outstanding;
- the general conditions of the securities markets; and
- any impact on operating expenses associated with an increase in capital.

Required Vote

Approval of the Share Issuance Proposal requires the affirmative vote of the holders of (1) a majority of the outstanding voting securities entitled to vote at the Meeting and (2) a majority of the outstanding Shares entitled to vote at the Meeting that are not held by affiliated persons of the Company. The 1940 Act defines "a majority of outstanding voting securities" of the Company as (a) 67% or more of the voting securities present at the Meeting if the holders of more than 50% of the outstanding voting securities of the Company are present or represented by proxy or (b) more than 50% of the outstanding voting securities of the Company, whichever is less. You may vote for or against or abstain on the Share Issuance Proposal. Abstentions and broker non-votes will not count as affirmative votes cast and will therefore have the same effect as votes against the Share Issuance Proposal.

If shareholders approve the Share Issuance Proposal, during a one-year period commencing on the date of such approval, the Company will be permitted, but not required or otherwise obligated, to offer and sell newly issued Shares at a price below NAV per Share at the time sold. **If the Share Issuance Proposal is not approved, the Company will not be permitted to sell its shares below NAV except as may otherwise be permitted by the 1940 Act.**

**THE BOARD UNANIMOUSLY RECOMMENDS THAT YOU VOTE "FOR" THE APPROVAL
OF THE SHARE ISSUANCE PROPOSAL.**

SUBMISSION OF SHAREHOLDER PROPOSALS

Requirements for Shareholder Proposals to Be Considered for Inclusion in the Company's Proxy Materials

Proposals that a shareholder intends to present at the Company's 2023 annual meeting of shareholders, which we refer to as the "2023 Annual Meeting," and wishes to be considered for inclusion in the Company's proxy statement and form of proxy for the 2023 Annual Meeting must be received no later than 5:00 p.m., Eastern Time, on January 31, 2023. All proposals must comply with SEC Rule 14a-8 under the Exchange Act, which lists the requirements for the inclusion of shareholder proposals in company-sponsored proxy materials. Shareholder proposals must be delivered to the Company's Secretary by mail at the address provided below. As the rules of the SEC make clear, simply submitting a timely proposal does not guarantee that the proposal will be included in the Company's proxy statement and form of proxy for the 2023 Annual Meeting.

Requirements for Other Shareholder Proposals to Be Brought Before the 2023 Annual Meeting and Director Nominations

Pursuant to the provisions of the Company's Bylaws, which we refer to as the "Bylaws," notice of any proposal that a shareholder intends to present at the 2023 Annual Meeting, but does not intend to have included in the Company's proxy statement and form of proxy for the 2023 Annual Meeting, as well as any director nominations, must be delivered to the Company's Secretary by mail at the address provided below and must be received by the Company's Secretary at the address provided below not less than 90 days nor more than 120 days prior to the first anniversary of the date of the mailing of the Notice of Annual Meeting for the 2022 Annual Meeting of Shareholders. Accordingly, any notice given by a shareholder must be received no earlier than 5:00 p.m., Eastern Time, on March 2, 2023, and not later than the close of business on January 31, 2023. To be in proper form, the notice must be submitted by a shareholder of record and must include the information required by the current Bylaws with respect to each director nomination or proposal that the shareholder intends to present at the 2023 Annual Meeting. If you are a beneficial owner of Shares held by a broker or other custodian, you should contact the broker or other custodian that holds your Shares for information about how to register your Shares directly in your name as a shareholder of record.

Notices of intention to present proposals at the 2023 Annual Meeting and/or director nominations must be addressed to Stephen Roman, Corporate Secretary, CION Investment Corporation, 3 Park Avenue, 36th Floor, New York, NY 10016, on or before January 31, 2023. The Company will not consider any proposal or nomination that is not timely. The Company reserves the right to reject, rule out of order, or take other appropriate action with respect to any proposal that does not comply with or otherwise does not meet the Bylaws or SEC requirements for submitting a proposal or nomination, or other applicable requirements. A shareholder who wishes to submit a proposal or nomination is encouraged to seek independent counsel about the Bylaws and SEC requirements.

The Board does not intend to present any other business at the Meeting, nor is it aware that any shareholder intends to do so. If, however, any other matters are properly brought before the Meeting, the persons named in the proxy will vote thereon in accordance with their judgment.
